ROUTED THE FILIPINOS

Wheaton's Advance Met Rebels at San Jacinto and Whipped Them

THIRTY-THIRD IN LEAD

Seventy-Seven of the Insurgents Were Killed and Thirty Captured

AMERICANS LOST 7 KILLED INCLUDING AN OFFICER.

Thirty-five of the Boys in Blue Were Wounded—Rebels Lost All Their Arms and Ammunition—Evidence That Aguinaldo Has Ordered the Use of Poisoned Arrows By His Troops—Lieut. Gilmore Seen in Tarlac With Five Men on Nov. 1, All Well.

Manila, Nov. 14—[Special Cablegram]—Gen Wheaton's advance met the insurgents at San Jacinto, while striving to join hands with Lawton. A fierce engagement followed in which the enemy was routed.

Seventy-seven Filipinos were killed. The Thirty-third volunteers, which led the attack, lost seven killed, including one officer, and thirty-five wounded. The Americans captured thirty rebels and over one hundred rifles.

Among the fourteen Filipinos killed in the attack by Col. March yesterday was Col. Caralas. On his corpse was found a telegram from Aguinaldo ordering the use of poisoned arrows. Many cross bows with arrows were found in the Filipino trenches.

Lieut. Gilmore Seen at Tarlac.

Washington, Nov. 14—[Special Telegram]—Admiral Watson cabled as follows from Manila this morning:

"Escaped Spanish prisoners from San Fabian report seeing Lieutenant Gilmore in Tarlac with with five men November first, all well. The location of the other thirteen is unknown. I have cabled Hong Kong for offers of salvage for the Charleston."

Most Desperate Battle of the War.

Manila, Nov. 14—[Special Cablegram]—The attack on San Jacinto was one of the most desperate of the war. The insurgent force which numbered twelve hundred, mostly Tarlac veterans, were concealed in trenches before which stretched for at least five hundred yards an almost impassable bog.

The Thirty-third volunteers with their Gatling gun dashed through the mud and struggled towards the enemy under a galling fire from the sharp shooters in the trees and in the houses along the road. One officer, a corporal and a hospital steward fell on the same spot, the sharp shooters knowing them by their insigna.

The Americans threw out a skirmish line about a mile and a half long which waded forward heroically in the face of the insurgent volley fire and kept pumping lead into the trenches.

CORBETT'S MONEY UP

To Fight Jeffries—Principals Will Meet This Week To Decide on the Date.

New York, Nov. 14—James H. Corbett has posted $5,000 to clinch his fight with Champion Jim Jeffries, and the men will meet Friday to agree on the conditions of the match. Al Smith holds the money, which is to go as a side bet. Corbett issued a formal challenge to the boilermaker, and agrees to meet him Friday to sign articles for the match. In his statement the ex-champion said that he was willing to fight the champion within four months, six months or eight months, whichever was agreeable to Jeffries.

William A. Brady, when informed of Corbett's intentions, said that he would cover his money just as soon as he found out what Corbett wanted. Brady said that four months would be plenty of time for Jeffries to get into shape.

Corbett will be trained by "Kid" McCoy. Thus the cleverest heavy weight that ever donned a glove will have the attention and advice of the most skillful middle-weight boxer in the world to day. The "Kid" will join Corbett's training camp at once and start to work as the ex champion's chief adviser and head trainer. The deal was arranged last night at an uptown sporting resort, where the pair were brought together.

LOOK FOR SHOWERS OF METEORS TONIGHT

HINTS TO THOSE WHO EXPECT TO WATCH THE DISPLAY

Brilliant Exhibition of Shooting Stars Expected to Begin at Midnight Tonight—Cause is the Earth's Contact With a Great Cloud Of Meteors.

About midnight tonight a brilliant meteoric shower may be expected, but it may not appear until tomorrow night and Thursday night. Astronomers, however, promise it within the next few days.

Observers intending to watch the display must necessarily take up a position commanding a good open view of the northeastern sky near the horizon before midnight. The radiant must next be located, being a point among the stars in the sickle shaped group in the constellation Leo. When the radiant, or point from which the meteors seem to radiate, has just risen above the horizon, the meteors seem to traverse long paths, but as the radiant approaches the meridian the paths are much foreshortened by the effects of perspective. The observations made should be of two kinds—first, to locate the point from which the meteors seem to come, and second, to count the number, appearing within a certain time and within some definite region in the sky.

It is interesting to note the color of the metors, their size, rapidity of motion, their brightness and the streaks of afterglow visible along the paths of the Leonids and forming a characteristic feature of the display.

The magnificent meteoric display is well worthy of observation, and, the showers of 1833 and 1866 have proved so remarkable, there is no reason why we should not look forward to an equally brilliant display in 1899.

The cause of the display is the earth's contact, once every thirty-three years, with a great cloud of meteors swinging around on its orbit. When these material bodies strike the outer atmosphere of the earth they are heated to the luminous point by the friction, and falling to the earth's surface, are visible to observers thereon.

Notable meteoric showers are recorded as having fallen on Oct. 13, A. D., 902, and at corresponding dates in the years 913, 934, 1101, 1202; 1366, 1533, 1602, and 1698. Brilliant displays were observed on Nov. 15, 1799; on Nov. 13, 1833, and on Nov. 13-14, 1866. Minor displays take place for one or two years succeeding that of the main fall. Thus showers may be expected in November 1901 and 1902. Observations of the phenomena this month are being made by the various universities and observatories throughout America and Europe.

Shopiere, Wis., Nov. 13—The Ladies' Aid society of the Congregational church will give a chicken pie sociable at the church on Friday evening, Nov. 17. Van Valen of Janesville, visited her daughter, Mrs. Spicer, Friday. Mr. and Mrs. Parsons have moved from the north side of the creek, upon B. H. Hill, last Thursday. Mrs. Hawley has been on the sick list the past week. Rev. F. Richardson's father, from Milton, visited him last week. Mrs. Bert Van Galder of Emerald Grove, was in town Saturday. The Old Maids' convention on Wednesday, Nov. 15, at grange hall, La Prairie, will cost you 15 cents; 10 cents for children. Farmers have nearly finished their fall work; a few more days good weather and the corn will all be gathered. Some of the corn is as good as last year, but much of it is very light.

FOOTVILLE.

Footville, Wis., Nov. 14—A horse sale at the stock yards last Saturday resulted in the purchasing by the farmers of many an unruly broncho. Runaways may be the next on the program. The past week has been ideal farming weather. Why talk against old Wisconsin? Matties & Call have disposed of a large part of their car load of apples. Robert Strong has his new furnace in fine working order. The course

AMUSEMENT NOTES.

Despite the inclement weather, an audience of between three and four hundred attended the opening number of the Y. M. C. A. lecture course in Association hall last night. Although everybody got more or less wet going and coming in a pouring rain, there is not a regret expressed. A finer and more artistic musical treat was never experienced in Janesville. The Salsbury Orchestra has a reputation that extends over the west, and these musicians confirmed all the good that has ever been reported of them in the performance last night. The program opened with Sousa's "Stars and Stripes Forever," and it was carried through with a swing and a harmony that was in the highest degree exhilerating. Then followed an overture from Rossini's "William Tell." The concluding allegro vivace: "The Chase," was a masterpiece of execution in tone and temper. Miss Abby Rose Wood then sang the aria "Bel Raggio" from Rossini. This soprano has a splendid voice under full control, but she was under some disadvantage, owing to a cold. In part second she sang two doll songs with much better effect, receiving an encore.

The orchestra delivered several descriptive and characteristic songs with much merit, notably the Fantasie "In a Clock Store." A grand selection from Faust opened the second part with a vim and dash that almost took the hearers' breath away. The divertisement for flute and clarinet was very fine, as was the plantation reminiscences of negro melody. "The "Capture of Santiago," a descriptive medley, pleased the audience very much.

The performance was first class in every respect, artistic and finished, and it is a pity the bad weather would not allow a larger audience. On November 28 the second number of the course will take place with Laura Dainty, Miss Grace Jenkins and Frank La Forge on the program.

MAY REFER IT TO CONGRESS.

President Inclined to Delay Appointment of Cuban Governor.

Washington, Nov. 14.—President McKinley will tell congress of his intention to appoint civil governors of Cuba and Porto Rico and may even wait for congressional action before announcing the appointments. This statement is made on the authority of a member of the committee on foreign relations who has just talked with the president on the subject.

Strong pressure is being brought to bear upon the president for the immediate appointment of these governors. Gov. Roosevelt is particularly urgent in his championship of Gen. Wood for the Cuban billet. He wants the appointment made at once, believing that the time is ripe for civil government and that Gen. Wood is just the man to effect the change with the best results for all concerned. The president is inclined to agree with Gov. Roosevelt on all points except immediate appointment. With congress only a few weeks off, he is considering whether it would not be advisable to allow that branch of the givernment to have a voice in the matter.

A comprehensive plan for the government of Porto Rico is now being worked into shape by Secretary Root, which will be presented in the form of a bill similar to the one now pending for the government of Hawaii.

Freedmen's Aid Society.

Philadelphia, Nov. 14.—The thirty-second annual meeting of the general committee of the Freedmen's Aid and Southern Educational society began here today, the representatives being the same as those of the Church Extension society of the Methodist Episcopal church, which met in Baltimore last week. The morning session was occupied in hearing the report of the board of managers for the last year, which showed an encouraging condition of affairs. During the last year upward of fifty institutions of learning have been maintained—about half of them being among the colored people. The school property is valued at about $2,000,000, of which nearly all is owned by the society.

Alters Plans of the President.

Washington, Nov. 14.—The attorney general has advised the president that there is a question as to the executive authority to appoint a civil governor for Cuba without further express authorization by congress. The president will therefore refer the question to congress, and in his message will take the position that the time is ripe for a forward move in the general plan to give the people of Cuba an opportunity to establish a local government. Congress will be asked to make known its will at an early day. This change in the white house program was not decided upon finally until yesterday. Congress will have to take the initiative in the matter.

Hobart Enjoys His Meals.

Paterson, N. J., Nov. 14.—Vice-President Hobart spent a restful night Sunday and a comfortable day, the only change in his condition being a slight improvement. Three good meals were provided for him Monday, and he seemed to relish them. Mr. Hobart sits up a large part of the time, but is still very weak. Still, it is now hoped that he will soon be able to be about the house again.

Corean Port In Controversy.

London, Nov. 14.—A dispatch from Shanghai says the relations of Russia and Japan have almost reached the breaking point. This crisis is said to be caused by Japan's refusal to allow Russia to take possession of the sea front in Masampo harbor, Corea, now held by the Japanese government, but leased by the Corean authorities for a term of years to Russia.

THIS DAY IN HISTORY.

LABOR COSTS MORE IN BROOKLYN.

The Brooklyn Times gives a rather unique example of the benefit derived by the laboring man as the result of the general prosperity, saying:

"There is no surer index of prosperity than advancing prices and rising wages, which generally go together. When times are hard and the labor market is glutted, men can be lured to work for barely enough to keep body and soul together, and prices go down. When times are prosperous and there is work enough for all, higher wages necessarily rule and prices go up.

"Under the tariff policy of President McKinley prosperity has come and prices have advanced. But there are few who realize the extent to which prices have advanced, as they appear to have done in the experience of the sewer department. It cost less than $1.50 to clean a sewer basin under the municipal administration of Mayor Wurster, and when Commissioner Kane employed Contractor Cunningham to do the same work for $4.75 a basin there was no little grumbling and complaint of extravagance among the taxpayers of Brooklyn. But on Friday last Commissioner Kane went before the Board of Estimate with a request for a largely increased appropriation and he explained that the increase was necessary because this year the cleaning of sewer basins would cost $6.50 each.

"Mr. Kane is high in the confidence of the powers that be, and he is supposed to conduct the affairs of his department on an economical basis. But if it costs more to clean one sewer basin now than it did to clean four during Mayor Wurster's administration, it must be admitted that the republican policy of protection has proved a tremendous success from the labor standpoint."

NO SLUMP IN PROSPECT

Some political prophets, who denied the existence of prosperity as long as they could, now admit that it is a reality, but shake their heads gloomily and predict a panic in the near future. They have nothing upon which to base the prediction, however, and their fear is not shared by the authorities upon such subjects. "Dun's Review" which has always been accepted as an honest and reliable statement as to commercial conditions, recently said:

It has been for months a wonder that the demand for products was sustained at rates exceeding past consumption in any year, notwithstanding the general rise in prices. But the demand does not appear to abate, and the rise in prices continues. A partial explanation is that scarcely any class of products directly consumed by individuals has advanced as much as the wages and employment of labor. With more hands at work more hours, and at 10 to 15 per cent. higher wages, the gain in purchasing power has been quite beyond the rise of 4 per cent in boots and shoes this year, or 8 per cent. in leather, 5.2 per cent. in woolen goods, or 10.9 per cent. in wool, and even beyond the rise of 17 per cent. in cotton goods, mainly due to the rise of 13 per cent. in cotton. But products used in manufacturing and transporting have advanced much more, because of the enormous increase in volume of business done and in anticipated business for the future. Higher prices cause shrinking demand, other things being equal, but this year other things are not equal.

According to a medical journal, a medical man phophasies that if for the next ten years the present relative death rates are maintained, in 1900 there will be more deaths in the state of New York from cancer than from consumption, small pox and typhoid fever combined. We suspect however, that this announcement is to be followed by another stating that Dr. Soandso has discovered a "sure cure for cancer."

Five battleships, one cruiser, one cadet training ship and twenty-five torpedo boats and torpedo-boat destroyers will comprise the new construction completed and added to the navy within the next year. Uncle Sam proposes to be in much more evidence on the high seas hereafter.

Dr. Fetherston, Formerly of Milton, and Well Known in Rock County, in Charge of the Case in a Windy City Hospital—Features of the Experiment.

The Chicago Times-Herald of Monday has the following to say of Dr. Fetherstone, a former Milton man, whose parents reside in that town:

A wee bit of humanity, weighing only a little over two pounds and four ounces, lies swaddled in wool in an incubator in the Chicago Lying in Hospital at 294 Ashland boulevard. Doctors and nurses are in constant attendance, using every means known to science to keep up the spark of life in the little body. The child is a perfectly formed boy and the doctors think that the little fellow has a very good chance of growing up to hear with wonder about the days when he lived like a chicken in an incubator.

An Incubator Was Necessary.

The child's mother was Mrs. John Smith, 3337 Hoyne avenue, and he was born there Sunday morning at 5 o'clock, Dr. E. A. Fetherstone of the hospital dispensary, 298 Maxwell street, was in attendance, and he realized that the little fellow would not be able to live without the aid of the incubator. The hospital was telephoned and orders given to prepare for his reception.

Dr. Fetherston heated a number of shawls and wraps and prepared a homemade water bottle. Then the child was wrapped up with the hot water bottle in the warm wraps and the trip to the hospital was commenced. Gathering his precious bundle in his arms the doctor began a sprint for the Thirty-fifth street cars. When he got in the car, shawls, water bottle, baby and all were put on the stove with no one in the car realizing the nature of the bundle.

The doctor had to transfer at Halsted street and the operation with the stove was repeated. Here the little fellow surprised the doctor somewhat and the passengers a great deal more by a plaintiff and baby-like cry. Again Dr. Fetherston had to transfer at Harrison street and after a trip of considerably over an hour in all, the baby arrived at the hospital. Within a very few minutes he was in the incubator, the center of an admiring group of doctors and nurses.

Smallest Baby Ever Born in Chicago.

Doctors think that the little fellow is probably one of the smallest babies ever born in Chicago with more than a fair prospect of living. His entire body is not over twelve inches in length and his head is about the size of a very small apple. His hands, which are perfectly formed in every respect are as big or as small as a man's thumb nail. The baby might be stowed away in a cigar box without the least trouble.

The first three weeks of his life will be spent in an incubator. The greater part of the next two weeks he will live in the incubator but will be taken out occasionally to be washed and fed. During his life in the incubator a nurse will have to be in constant attendance. Automatic contrivances regulate the heat and moisture but he must be given nourishment every half hour. His present diet consists of thirty drops of milk each time given with a medicine dropper.

TWO YEARS SPENT WITH BARNUM CIRCUS

ARTHUR WINDISH RETURNED HOME LAST EVENING.

Most Novel Experience Traveling With An American Circus Through Great Britain—England and Scotland Visited—He Has Signed to Travel in Germany.

Arthur H. Windish, son of Mrs. Barbara Windish, 210 North Main street, who has been in charge of the lithograph work for the Barnum & Bailey circus during the past two years in Great Britian, returned home last evening. He is now busily engaged in greeting his host of local friends who are all anxious to hear of his travels. The experience has been one that not many Janesville boys enjoy.

During his two years abroad Mr. Windish has been in Great Britian the entire time. The Barnum circus is the same P. T. Barnum show that has traveled over America for years. The show opened in London where they played to crowded houses for several months. It was in this greatest of cities that Mr. Windish joined the advertising crew which goes three weeks ahead of the show. Fourteen Americans formed the advance advertising crew and a happier lot of men were never together in a foreign land. They slept in their own car at night and took all their meals at hotels. After leaving London this advertising crew made their way to the largest cities throughout England.

In most of their large cities like Manchester, York, Birmingham, Liverpool, Brighton and Sheffield the show played week stands to big business. From England the circus visited the large cities and towns of Scotland playing a week at Edinburgh and Glasgow.

The work performed by Mr. Windish was not as pleasant as it would have been in a country like the United States. The English and Scotch merchants are a hard set to deal with. They think that one is trying to rob them when asked such a favor as to place a lithograph in their places of business. It was this work that the Janesville boy had charge of. Eight men were employed in this store lithograph work. But few stores escaped this crew of American hustlers.

When a bill was placed in a window the merchant was given free tickets to the show but before given his tickets he was asked to sign a contract which was to the effect that the bills should remain in their widows or places of business till the day of the show. It was here all the trouble came in. They would sign nothing until fully convinced that they were not getting robbed. One merchant in Glasgow sent out for the lawyer to look over the contract before he would sign it.

Last month the show closed and is now in winter quarters. Many of the Americans have returned. The fourteen members of the advance advertising crew reached Philadelphia last week after a most disagreeable ocean voyage from Liverpool. The scheduled time of the boat was nine days but it was sixteen days in making the trip. Heavy seas broke over the boat several times during the voyage. Women were frightened so that they spent much of their time in praying over their safety. Next season the Barnum circus will tour Germany and will make but six cities. They are billed for several weeks in the city of Berlin.

Of the fourteen men who comprised the advance advertising crew but two were able to sign contracts for next season. Mr. Windish was one of these. The show require men who can talk German.

American and United States Express Companies Are at Outs

For some time past the American Express company has been handling the United States Express company's business through this section of the country, but it is now stated that the "States" will soon put in agents of its own and maintain independent offices. The dissolution will take place at Madison this week, and it is rumored that the company will soon appoint an agent at Freeport. The United States company controls the business on the St. Paul system of railroad. Local employes claim that they know of no such change in Janesville.

COUNTY BOARD IS IN ANNUAL SESSION

CONSIDERABLE BUSINESS TO BE TRANSACTED.

Meeting Will in All Probability Last Through Friday—Usual Reports Will Be Received and Passed On—Good Attendance at Opening Meeting This Afternoon.

Members of the Rock county board of supervisors met in annual session this afternoon in the office of County Clerk F. P. Starr. The meeting will in all probability continue through Friday of this week. Reports from the different committees will be received in their regular order and general business will transacted throughout the meeting.

Thirty-six members of the board were present at 2:30 o'clock when Simon Smith of Beloit, as chairman, called the meeting to order.

L. M. Nelson was chosen as janitor of the court house for the ensuing year the vote being by acclamation. This is Mr. Nelson's eighteenth term and is good evidence that his excellent services are appreciated.

Supervisor Miller read District Attorney Jackson's report of money received in the municipal court during the past year ending with November 8, 1899. The report showed the receiving of a total of $775.65 which sum has been turned over to County Treasurer Thorpe.

Supervisor White stated that no license money had yet been received by the county from Janesville, Beloit and Edgerton.

Stephen B. Kenyon was elected superintendent of poor for the ensuing three years. Mr. Kenyon is an excellent man for the place and his good work for the county is to be seen on all sides.

The several reports read were referred to the different committees and on motion of Supervisor J. J. Cunningham the board adjourned until tomorrow morning at 10 o'clock.

MANY FILE CLAIMS AGAINST ESTATE

CHARLES T. WILCOX HEIRS ARE BEFORE THE COURT.

Attorneys Claim That the Estate Owes a Total of $25,000 and That Some of the Property Should Be Sold—Heirs Think Different—Case Now Before Judge Sale.

There was a merry time of it in the Rock county circuit court today when Judge J. W. Sale heard interested attorneys who petitioned the court to sell certain real estate belonging to the Charles Wilcox estate. They asked that property be sold to satisfy debts that are now alleged to be standing against the estate. They allege that in the neighborhood of $25,000 is owed by the Wilcox estate, which is valued in the neighborhood of $40,000.

The piece of property that the attorneys have petitioned to be sold is the brick block and land at the corner of River and Dodge streets. They allege that they have a buyer for this property who is willing to invest $10,000. The property in question consists of a two-story brick building that is now in course of erection by David Jeffris. If this property was sold the attorneys claim that after the debts against it had been settled there would still be money left to satisfy the claims against the estate aside from mortgages which amount to $17,256 besides about $1,000 interest money.

Claims in Judge Sales court have already been allowed against the estate to the amount of $1,383.63. Those having the largest claims filed are local doctors, lawyers and merchants. Attorney's fees amount to a goodly sum. There is no telling what they will foot up before the matter is settled in the courts.

Miss Mary Wilcox, half owner of the estate, is contesting these claims through her attorneys, Whitehead & Matheson. Mrs. Maggie Huntress, part owner in the estate is represented by Attorneys Angie King and E. D. McGowan.

The property left by the late Charles Wilcox consists of eight valuable pieces of property as follows:

Three story brick block on East Milwaukee street; two story brick block corner of River and Dodge streets; vacant property corner of Court and Park streets; leaf tobacco warehouse on West Milwaukee street; six acres of land on South Main street; three vacant lots on Jefferson street; four vacant lots on Center avenue; one hundred and sixty acres of land in Rock county.

The Pavement on West Milwaukee Street Damaged in Places.

The storm of last evening although severe, did little damage in the city outside of the business section. Street Commissioner Frederick says that in the resident portion of the city no damage resulted aside from washing several of the sewers full of sand and rubbish.

LEAF TOBACCO TRADE ACTIVE AND STRONG

OWING TO A PHENOMENAL DEMAND FOR CIGARS.

Never Before Has Such a Quantity of Leaf Tobacco Been Used Up as During the Present Year—Still Hopes That Prices Will Advance.

The United States Tobacco Journal gives the following summary of the conditions of the leaf market for the week ending Nov. 13:

The market remains active and strong, not only here, but also with the leaf jobbers trade throughout the entire country. Never before have the reports of our correspondents been as glowing about the trade activity at any place from which they report at the present. The life of the salesmen on the road seems to have become one of roses instead of thorns. Orders are never wanting, and the cause—the continued phenomenal activity of our cigar industry.

The yearly statistics will undoubtedly prove that never before has such a quantity of leaf tobacco been used up than during the present year. And every type finds its takers, even if it does not come up to perfection. For the manufacturer is too busy nowadays to be too particular and to waste time in experimenting with too many samples. And as long as the consumer is satisfied with the smokes offered and crying for more, why should he bother himself with being too over fastidious? The only tone of discord heard in this happy condition is about the price, which does not advance in proportion either with the demand for or lack of supply. Sales for the week about 2000 boxes of all kinds and descriptions.

HUNTERS RETURN WITH SEVEN DEER

LOCAL PARTY HAD SOME EXCELLENT SHOOTING.

Report That the Dry Weather Put the Animals on Their Guard—Drs. Edden, Powell and Chittenden and Attorney John Cunningham Formed the Local Delegation.

After a two weeks hunt in the deer forests of Chippewa county, Dr. R. W. Edden, Dr. R. W. Powell and Attorney John Cunningham and Dr. George Chittenden returned home this morning. They claim to have secured seven deer. As the result of their labor they are now having on exhibition in the city excellent specimens of the full grown deer. At the meat markets of C. E. Brown and George Scarcliff two of the deer are now being displayed.

While in the northern pineries the local party report a most excellent time. Their camp was located five miles from a railroad and was in the very heart of the pine region. Their sheltering place consisted of a small frame house and in this they slept and ate their meals. They were provided with a guide who looked after their wants at all times. Dry weather made it difficult to hunt deer. The least little noise would frighten the animals who were continually on the lookout from early morn till late at night.

Squirrels are numerous in the woods this year and the rustling noise they make at times fools the hunter who imagines he hears an approaching deer. The deer secured by Dr. Edden was shot through the body after the bullet had passed through a small sized tree. Venison is not as plentiful in the northern cities as it has been and in many places is bringing twenty cents a pound.

The other Janesville party in the northern pineries are experiencing excellent shooting.

Judge C. L. Fifield and Clerk of Court T. W. Goldin returned home today after an outing in the deer forests of Oconto county. They report plenty of deer and say that they received their share, Sheriff Appleby and the balance of the party remained behind and are having good sport.

AGUINALDO IS IN HIDING.

American Troops Hot on the Trail of the Insurgent Leader.

REBELLION NEARING AN END.

It Is Believed the Capture of the Rebel Chief Is Certain, as All Avenues of Escape Are Cut Off—Bayonbong Now Filipino Capital.

Manila, Nov. 14—When Col. Bell, with his regiment, the Thirty-sixth infantry, entered Tarlac, the Filipino capital, Sunday night, Aguinaldo was not there and his army had also decamped. Reports from the insurgent lines and documents found in the deserted capital indicate that Aguinaldo left Tarlac on Nov. 10. If this information be correct he has failed to escape to Bayonbong, whither the most portable belongings of the peripatetic government of the Filipino republic were taken some days ago. Gen. Young's cavalry holds the line of retreat to Bayonbong, and Aguinaldo will find it very difficult to get away from the Americans if he got as late a start as is reported.

A guard of honor, consisting of 173 bolomen, who came down from the mountains to receive Aguinaldo and escort him to his new capital, and his secretary, have been captured by the Americans. This seems to prove that Aguinaldo did not reach the mountains, and that, therefore, he is hemmed in by the cavalry line, which is on the alert and eager for his capture.

Gen. Young and Gen. Lawton hold the entire country which must be traversed to reach the mountain passes. The escape of the insurgents in that direction, therefore, seems almost impossible. Gen. Wheaton controls the north end of the valley and the important coast road, which is the main highway to the northern provinces.

There are indications that the insurgents are making a strong effort to divert the attention of the Americans from the trail of their fugitive commander. They are throwing up forts in various places in the valley. An attack has also been made on the south lines of the Americans in Cavite province, near Imus and Calamba, and the troops there are actively engaged against bands of guerrillas, which harass them daily. It is believed, however, that the entire problem hinges on the operations in the north end of the valley and on the capture of Aguinaldo and the disintegration of his army.

Col. Bell's regiment, the Thirty-sixth infantry, equipped with pack mules carrying supplies and ammunition, left Tarlac Monday and is traveling swiftly northward, hoping to overtake Aguinaldo. It is the opinion here in Manila that the organized insurrection is over and that the insurgents now cannot hold any capital long enough to establish a routine government. With the swift columns of Gen. Young and Col. Bell closely following the fugitive officials of Aguinaldo's republic, the war seems to have degenerated into a foot race.

By a decree dated Oct. 5 Bayonbong is declared the capital of the Filipino republic on account of the unhealthful conditions at Tarlac, where 20 per cent of the insurgent troops were said to be sick with fever. However, telegrams found in Tarlac by Col. Bell show that Aguinaldo was there only three days ago. In response to a telegram from Gen. Otis, Gen. MacArthur telegraphed to Manila his belief that he could deliver a dispatch to Aguinaldo within the next two or three days. This may indicate that negotiations are already in progress tending to end the rebellion.

On Nov. 11 Major Marsh, of Gen. Wheaton's brigade, engaged a force of 400 insurgents at Magadon, routing them after a sharp engagement and killing fourteen. The rest of the insurgents retreated toward Dagupan.

The occupation of Tarlac and the valley to the north, along the Manila & Dagupan railroad, is considered of great importance by American officials. They expect to be in full control of the valley from Manila to Dagupan within the next few days. The Filipino army is routed and is hiding, and the whereabouts of its main force is not known. Little or no resistance is expected from the insurgents in those parts of the valley not yet occupied by the Americans. When the insurgents are completely driven out of this fertile territory, subsistence will become a serious problem with them. It is thought here that an organized force cannot be put in the field again by Aguinaldo.

Manila News Is Encouraging.

Washington, Nov. 14.—The official and press reports from Manila are very encouraging, as they agree in the conclusion that the insurgents have given up all hope of resistance, and are flying in every direction to get out of the way of the United States troops, who surround them. There is still some question as to whether Aguinaldo has escaped. The reports are conflicting. But from the military point of view it does not matter so much as to what becomes of the leader if his army is captured and he leaves the country.

Brought French Steamer to Time.

Lorenzo Marques, Delagoa Bay, Thursday, Nov. 9.—The French steamer Cordoba has arrived here. When seventy miles out she was signaled by the British third-class cruiser Magicienne, and as she did not obey a blank shot was fired across her bows. After her manifest had been examined she was allowed to proceed.

TROOPS KEPT UNDER ARMS.

Kentucky Highly Wrought Up—Election Result Still in Doubt.

Frankfort, Ky., Nov. 14.—Gov. Bradley vigorously denies the story sent out that a bodyguard had been established to protect his person by reason of the intense political feeling and threats of bloodshed. He does not deny, however, that a force has been engaged at the state arsenal in sending out guns and equipping militia companies and that in addition there has been detailed a squad of the Frankfort company, under Capt. Kersey, to be ready in event of trouble over the election for governor.

Gov. Bradley has disarmed a majority of the members of the local company. It is claimed that the members whose guns were ordered returned to the armory are democrats.

It is currently rumored that Gov. Bradley will soon declare martial law in Frankfort for the preservation of the peace. Feeling is high, and both sides in the political contest are determined, but it is believed that when the returns are certified a fair count will be given and no trouble will result.

Senator Goebel and the democratic leaders are still waiting on the final action of the boards of election in Jefferson, Christian, Knox, Johnson and other counties. It is claimed that enough fraudulent votes will be thrown out in these counties to give Goebel a majority on the face of the returns. The rumor that the governor intends to declare martial law arises from the report that in the event Knox and Johnson counties are thrown out he will refuse to recognize Goebel as governor.

Will Hear Lynching Case.

Indianapolis, Ind., Nov. 14.—Attorneys for the defense in what is commonly called the Scottsburg lynching case filed a motion to dismiss in the federal court Monday. Judge Baker held it was too late to file the petition and the court has jurisdiction. This is the action in which John W. Tyler of Illinois has brought suit against Sheriff Goblin and his bondsmen of Scott county, charging that he failed properly to protect Marion Tyler, who was lynched by a Scott county mob last Christmas. In their motion for dismissal the attorneys for the defense set up that the court had no jurisdiction.

Smith's Big Plurality.

Baltimore, Md., Nov. 14.—The official count of the ballots cast at last Tuesday's election gives Col. John Walter Smith, democratic candidate for governor, 12,121 plurality over Lowndes, republican incumbent. Col. Smith carried Baltimore city by 8,101. Candidates for other state offices did not run more than a few hundred votes behind the leader on the democratic ticket.

Supreme Court Takes Recess.

Washington, Nov. 14.—Chief Justice Fuller of the United States Supreme court announced Monday that the court would take a recess for a fortnight, beginning next Monday. The court today advanced the case of Knowlton vs. Moore to be heard with the case of High vs. Coyne on Dec. 4 next. Both cases involve the constitutionality of the inheritance tax law.

Iowa Democrat Elected.

Burlington, Iowa, Nov. 14.—The board of supervisors, in canvassing Tuesday's vote in Des Moines county, found an error of twenty votes in the Fifth ward, resulting in the election of Jaeger (dem.) over Hawkins (rep.) to the state legislature by thirteen votes. This gives Des Moines county two democratic votes in the legislature.

Game Ends in a Row.

Bloomington, Ind., Nov. 14.—In the intercollegiate football game here Monday between the Indiana university and Depauw, Indiana scored thirty-four points in the first half and Depauw none. Depauw then refused to continue the game because a claim of a touchdown was not allowed, the umpire on each side disagreeing.

CHICAGO LIKELY TO GET IT.

Republican Committee Meets Dec. 15 to Select Place for Convention.

Cleveland, Ohio, Nov. 14.—After a consultation between Senator M. A. Hanna and Charles F. Dick, chairman and secretary respectively of the national republican committee, the latter announced that it had been decided to call the committee together Friday, Dec. 15, next, at Washington, to name the time and place for holding the next national republican convention. Secretary Dick will at once issue a formal call for the members of the national committee to meet on the date above mentioned.

Milwaukee, Wis., Nov. 14.—Henry C. Payne, national republican committeeman of Wisconsin, gave it as his opinion that Chicago would be the place selected for holding the next national republican convention.

McGiffert Case Postponed.

London, Nov. 14.—Sir Michael Hicks-Beach, chancellor of the exchequer, speaking at Bristol, said: "The war in South Africa has destroyed both conventions with the Transvaal. We must establish there a pure and honest government on the basis of equal rights and on something more enduring than paper safeguards. Subject to this we should give whatever self-government may be possible in South Africa. No one desires that great country to be governed permanently from Downing street."

Negotiation for Open Door.

Washington, Nov. 14.—The replies of the European nations interested in China to the request of the state department for a formal undertaking to preserve the "open door" in the east are not expected for several weeks, inasmuch as the exchanges are not taking place in Washington, but at the various European capitals.

A YOUNG MAN'S SUCCESS.

How He Secured Happiness—Hope for Others.

Three years ago I was a wreck of manhood, without ambition, energy or hope. I was a victim of secret vice and the fearful results of the vile habit which so often robs men of manhood and health, renders life a burden, business a failure and marriage a disappointment. I was weak, tired, languid, despondent and nervous, together with other symptoms of that disease of error. I felt that my life was blighted and robbed of all that makes life worth living. My wife, whom I loved fondly, almost sacredly, and whose love was an inspiration to me to achieve the most of life's opportunities, had changed in a year, from a cheerful, hopeful, light-hearted, happy girl, became discouraged, dissatisfied and careless; disappointment and unhappiness were pictured on her countenance.

I was conscious that my crime against nature, although done in ignorance and thoughtlessness, was the cause of all my trouble, and I felt like a criminal in hiding; fearing discovery. I was in despair, and often wished the cord of life might be broken and I be released from a bondage which was worse than death.

To-day I am well and happy, restored to perfect health and vigorous manhood, relieved of all the effects of disease, and experience joys and happiness that I had never before known.

My wife has experienced as great a change as myself. She is happy and light-hearted as of yore and our baby boy, now sixteen months old, is a perfect picture of health, and when he plays about his mother's knee I think of him as a bond of love, and health and happiness restored; and my heart swells in grateful thanksgiving to the Giver of all good things that, with restored health, I can appreciate the greatest pleasures of life, the most exquisite enjoyments and sweetest embrace, such as I believe few men have experienced.

When a man has suffered for many years with a weakness that blights his life, and robs him of all that really makes life worth living, when after years of doctoring with all sorts of advertised remedies and self-styled Specialists, he finds a cure that brings back the health and energy that seemed lost forever, he naturally wants his fellow man to know about it and to lift out of bondage the thousands of young, middle-aged, single and married men who are to-day battling with a shattered nervous system as I did. It is for them that I tell this story. While suffering as above I was advised by Rev. H. P. Johnson to consult Dr. N. E. Wood, the celebrated Chicago Specialist. I did so, and he restored me to health and happiness which I would not part with for the wealth of the world. I have asked him to publish this letter for the benefit of others who should seek a cure before it is too late.

I am gratefully yours,
GEO. A. GOODWIN,
743 Madison St., Chicago, Ill.

BOERS KEEP THEIR GUNS HOT.

Rain Shells on Both Ladysmith and Mafeking.

BRITISH HOLD THE TOWNS.

Unless the Transvaal Forces Very Soon Succeed in Compelling a Capitulation of Ladysmith the Relieving British Troops Will Raise the Siege.

London, Nov. 14.—The Boers investing Mafeking are giving Baden-Powell quite as much exercise as Joubert is giving Gen. White at Ladysmith.

The official dispatches describe brisk engagements on the 24th and the 31st, and, of course, both are brilliant British victories according to the stories that have passed the censor.

The first battle was fought at night, when Baden-Powell was annoyed by the Boers erecting trenches at the gates of the city, and sent two regiments of the protectorate and a third of the Royal fusileers to drive them out.

The fight was undoubtedly hot and was waged by both infantry and cavalry, finally ending in a British bayonet charge, causing the Boers to retreat to two miles northeast of town. The British lost six killed and nine wounded, including Capt. Fitzclarence and Lieut. Swindon.

On the 31st the Boers returned the compliment by attacking with cannon at the southeast corner of the town, and again the fighting was severe, the British losing Capts. Marsham and Pechell and four troopers killed and five wounded.

Since these two battles the Boers have kept up an almost continuous bombardment, and have destroyed the railroad north of the city with dynamite.

Kimberley was reported quiet on the 9th.

The absence of news from Natal and Cape Colony points unmistakably to the fact that important moves are maturing. These are probably in two directions, the first toward Colenso to relieve Ladysmith and recapture important bridges over the Tugela, and the second in the direction of the Orange river bridge to head off the threatening approaches upon Bloemfontein, or possibly Gen. Buller may decide to give the Boer raiders in Cape Colony a fight.

Four more transports have arrived at Cape Town, bringing 4,700 men. The Hawarden Castle was sent to Durban with 1,084 in all.

If the other First division ships are sent to the same port, there are just 8,000 of the army corps between Cape Town and Natal or already landed at the latter colony.

As the Armenian brings three batteries of field artillery, Gen. Methuen will be able to move to White's help much earlier than was expected. The Gascon is said to have been ordered to Durban and Delagoa bay, but it is not likely, however, that any British troops will disembark at the latter place.

The Chronicle's Brussels correspondent says that, according to information received from an alleged trustworthy source, the Independance Belge states that as a result of the meeting between the czar and the kaiser the question of friendly intervention in the South African imbroglio is about to take definite shape.

This step, it is said, was not decided without first consulting France, and the offer will emanate from the czar, who, as both the author of the peace conference and a sovereign not directly interested in the quarrel, is best qualified to act the rôle of peacemaker.

It is hinted that if these advances are rejected by Great Britain it would be necessary to take up arms for the last time to assure once and for all peace in Europe and throughout the world.

According to news received at Pietermaritzburg, the Boer plan is to make a last stand in the mountainous districts of the Zoutpansberg, in the northern Transvaal, where large stores of provisions have been accumulated. British operations so far from railway communications would be difficult and tedious, especially if Pretoria and Johannesburg should not be first taken.

Troopships Sail from Cork.

Cork, Nov. 14.—The British troopship Dun Era sailed Monday with 800 men of the South Staffordshire regiment, to relieve the garrison at Gibraltar, and also a detachment of the Sherwood Foresters for the Cape. The Scots Greys' departure is indefinitely postponed on account of the sickness among the horses.

Chief Joel to Join the Boers.

Maaseru, Nov. 9.—The indications are that Chief Joel of the Basutos will join the Boers, who are likely to annex a strip of the northern territory of Basutoland. The other chiefs, however, are stanch, and there is no cause for alarm.

Guards Arrive at Cape Town.

Cape Town, Nov. 14.—Transports arrived here Monday with 4,135 troops, including the Royal Welsh fusileers and the Scotch fusileers guards.

Discredit Alarmist Rumors.

London, Nov. 14.—Careful inquiries reveal nothing extant in diplomatic circles here to justify the alarmist view taken by a section of the press regarding the situation in the far east. That a serious denouement is so close at hand as is indicated by advices from Shanghai during the last twenty-four hours is regarded as incredible. It can be asserted positively that if Japan and China contemplate aggressive action against Russia, Lord Salisbury is not aware of their intention.

Mrs. Ada E. Hill Is Arrested.

Aurora, Ill., Nov. 14.—Sheriff Gorman of Wheaton came here Monday and arrested Mrs. Ada E. Hill on a warrant charging her with the murder of Mrs. Eliza Hill, her mother-in-law, Oct. 17 last, by producing burns from which the victim, who was 82 years old, died three weeks later. The accused is the wife of Thomas Hill of this city. Old Mrs. Hill made a dying statement to the watchers at her bedside in which she accused Mrs. Ada Hill.

American Relations with Japan.

Paris, Nov. 14.—The Journal des Debats, in a leader on Russo-Japanese rivalry in China, says: "The United States has some interests in common with Japan, and Tokyo knows it, but these interests are not of a nature at present to cause America to go to war. Militarism has not yet made such progress at Washington that the United States will begin a struggle with Russia without good reason. For this cause Japanese politicians will do well to think twice before acting."

Lives Lost on Casquet Rocks.

London, Nov. 14.—On Friday night the Belgian steamer Belgique, from Antwerp for Alexandria, foundered off the Casquet rocks, near the island of Alderney, the scene of the disaster which last March befell the London & Southwestern Railway company's passenger steamer Stella. Eighteen persons, including the captain, out of a total crew of twenty-six, are believed to have perished.

Germans Slaughter Cannibals.

Liverpool, Nov. 14.—The British steamer Volta, from the German Cameroons, West Africa, which arrived here Monday, reports that a German punitive expedition in the Cameroons recently chastized a tribe of rebellious cannibals who had besieged several trading stations at and near Kribi. The Germans chased the natives into the bush, killing 200.

Revolution in Colombia Ended.

Colon, Nov. 14.—It is said that the insurgents in the department of Bolivar were defeated Nov. 9. An armed river steamer left Carthagena Nov. 11 with Bogota mails, thus showing, it is claimed, that the revolution is ended.

Takes New South Wales Men.

Sydney, N. S. W., Nov. 14.—The transport Langton Grange has sailed from Newcastle for South Africa, with the final contingent of the New South Wales division—four officers and fifty-seven men.

Will Survey Canal Route.

Kingston, Jamaica, Nov. 14.—The United States gunboat Scorpion arrived here Sunday, conveying the United States commission dispatched for the purpose of surveying the suggested new Colombia canal route between Caledonia bay and the gulf of San Miguel, for a sea level waterway, necessitating only twenty-six miles of actual canal.

Secrecy Over Kaiser's Visit.

Berlin, Nov. 14.—Strict secrecy in regard to the kaiser's visit to England is preserved in official circles here, and the newspapers depend upon the London dispatches for details. Russian apprehension in connection with the kaiser's visit is reported to have been allayed since the czar's visit to Potsdam.

Home Rule for South Africa.

New York, Nov. 14.—The case of Prof. Arthur McGiffert of Union Theological seminary, who is charged with holding views that are at variance with the doctrines of the Presbyterian church, came before the presbytery Monday and was postponed to the December meeting.

YES OR NO?

Janesville People are Respectfully Asked to Answer These Questions.

Is there anything in the evidence of one's senses?

Is there anything in the testimony of one's friends?

Can reliance be placed upon statements from people we know?

Are the opinions of local citizens of any greater moment than those of strangers?

Would you sooner believe people living in some far away place than citizens of your own city?

We think not! for home proof can easily be investigated.

Mr. John Stetson, of Hotel Myers, day clerk, says: "A physician pronounced my trouble kidney complaint. If the severe pain across the small of my back is any indication of the said complaint, I guess I had it. For two years I suffered with attacks, sometimes virulent, sometimes a dull, grinding ache, which robbed me of considerable energy. I used in addition to doctor's prescriptions, several preparations said to be sure cures for kidney complaint, but up until I procured Doan's Kidney Pills at the People's Drug Co.'s drug store, I received little if any permanent relief. I took a thorough course of treatment prescribed by Doan's Kidney Pills and it cured me. Up to date I have not noticed any recurrence of my old trouble."

Sold by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.
